GET DIRTY[™]

VW BAJA BUG

READY-TO-RUN 1/10 SCALE EP 2WD

The Blast from the Past!

Get your share of off-road excitement with this officially licensed, 1/10 scale replica of the legendary VW Baja Bug! It takes harsh terrain in stride, sand dunes as easily as dirt roads — and rainy weather just as confidently as perfect driving conditions. MagnaFlex™ components in critical areas provide the durability and strength to go the distance — and the Stress-Tech™ FREE Replacement Guarantee backs up the performance promise with a full year of real protection.

It's ready-to-run — and ready to go beyond where the sidewalk ends.

Battery not included.

- Duratrax 2.4GHz FHSS radio system by Futaba®
- Sprint™ 2 Plus ESC with LiPo cut-off
- Photon Speed™ 19T modified motor
- Painted, finished polycarbonate body
- Assembled, oil-filled shocks
- MagnaFlex™ plastic components
- Mounted tires with inserts
- Full set of ball bearings

DTXD36**
Length: 18.2 in (465 mm)
Width: 9.5 in (240 mm)
Height: 8.7 in (220 mm)

Weight: 3 lb (1.36 kg)
Requires: 6C NiCd/NiMH or 7.4V LiPo battery,
(4) "AA" batteries & charger

Officially licensed
by Volkswagen

EVADER™ BRUSHLESS

READY-TO-RUN 1/10 SCALE EP 2WD

Brushless-powered, for non-stop high-speed action.

The radio system is a 2.4GHz system made by Futaba, and the receiver is compatible with Futaba FHSS surface systems. The power system boasts a brushless ESC and motor, for blistering speeds and hotter action than ever before.

And those are just a few of the highlights, because this Evader also includes waterproof electronics, full ball bearings and a factory-installed wheelie bar. It's ready for action right out of the box, but it's also compatible with virtually all Evader upgrades!

GET DIRTY™

- Duratrax 2.4GHz FTR radio system by Futaba®
- 3930kV sensorless brushless motor
- 100A waterproof brushless ESC
- Painted, finished polycarbonate body
- Factory-installed wheelie bar

- Metal transmission gears
- Dual-pad slipper clutch
- Full set of ball bearings
- Compatible with 2S LiPo packs
- MagnaFlex™ plastic components

EVADER EXT2™

READY-TO-RUN 1/10 SCALE EP 2WD

Rough, tough and ready.

The four trim schemes and split 6-spoke wheels? Strictly for show. But everything else about the Evader EXT2 screams "Go-go-go!" The Photon Speed 2 motor delivers insane speeds and acceleration, while the Sprint ESC provides precise forward, brake and reverse control. Treaded, all-terrain tires slam power to the ground anywhere you wanna go. They're all included, and like the onboard gear for the Tactic 2-channel radio, they're ready to take off-road by storm.

Battery not included.

- Tactic™ 2-channel radio system
- Photon Speed™ 2 motor
- Sprint™ ESC
- Painted, finished polycarbonate body
- Oil-filled shocks with metal caps
- Mounted tires with inserts
- Battery hold-down (accepts 2S LiPos*)
- Full set of ball bearings
- MagnaFlex™ plastic components

DXR500

READY-TO-RUN 1/5 SCALE BRUSHLESS EP MOTORCYCLE

**Speed, strength, style...
this bike has it all!**

Open up the throttle and lean into the turns! Whether you're battling for racing position or just barreling down the street, the DXR500 is easy to drive. A flywheel gyro holds the cycle upright at low speeds and while you lean through turns, so you can start slow...and gradually build skills for full-throttle fun.

- **Strong, simple and efficient metal chain drive**
- **Front air shocks and oil-filled steering damper**
- **High-volume, oil-filled rear shock**
- **High-grip on-road tires**
- **Easy-access battery compartment (accepts NiCd, NiMH and LiPo packs)**
- **Factory-finished, race-inspired body and driver**
- **Tactic™ 2.4GHz 2-channel radio system**
- **Powerful 3800kV brushless motor**
- **Brushless 75A ESC with Deans® Ultra Plug® connector**

Deans® and Ultra Plug® are registered trademarks of W.S. Deans Co.
U.S. Patent No. 5,533,915

08

DTXD04**

Length: 16.75 in (425 mm)

Width: 4.25 in (110 mm)

Height: 11 in (280 mm)

RTR Weight: 5.5 lb (2.5 kg)

Requires: 7.2V NiCd/NiMH or
7.4V LiPo battery & charger

DX450

GET DIRTY™

READY-TO-RUN 1/5 SCALE BRUSHLESS EP MOTORCYCLE

Off-road tough... on-road fast!

This bike's not just ready to run...it's ready to run on dirt, pavement, grass or gravel! The DX450 makes getting into exciting motorcycle action easy all the way around: a gyro system keeps you stable during low-speed cornering and high-speed handling, and it comes assembled, painted and packed with performance. Just drop in a battery pack, and the other drivers can color you gone!

- **Durable and super-responsive metal chain drive**
- **Dual, long-travel coil-spring front shocks**
- **Brushless 3800kV motor**
- **High-volume, oil-filled rear shock**
- **Modular, black-anodized aluminum chassis**
- **75A brushless ESC with Deans® Ultra Plug® connector and works with NiCds, NiMHs and LiPos**
- **Painted and detailed driver figure**
- **Tactic™ 2.4GHz 2-channel radio system**
- **Complete 14-piece bearing set**

PERFORMANCE TIRES

Competition quality at competitive prices.

- Top-end traction that keeps you on the track and racking up laps long after the other guys have limped to the pits
- A wide variety of aggressive tread designs, in both soft C2 and super-soft C3 compounds*
- All tires, mounted tire sets and inserts are sold in pairs; all mounted tires include inserts
- Grooves in each insert conform to the tire's reinforcing rib for added sidewall support and improved handling
- Each tread has a name and a color code, and both are imprinted on the sidewall for fast, easy identification

*For a complete listing of tires and recommended applications, see the Tire Chart at duratrax.com.

Duratrax tires include a one-piece insert molded to fit the wheel. It not only lasts longer and performs better — it eliminates separation!

Tools & Accessories

ENGINE TOOLS

Engine Tuning Screwdriver

120 mm hardened steel shaft. 3.2 mm wide magnetized tip. DTXR0185

Engine Tuning Tool

Stores a spare glow plug (not included); includes a piston locking tool. DTXR0187

Crankshaft Locking Tool

Threaded tool locks the piston and crankshaft for easy clutch mods. DTXR1100

Ultimate Flywheel Wrench

Holds flywheel in place while tightening and loosening clutch nuts. Fits 2-4 pin flywheels. DTXR1105

Clutch Shoe Tool

Removes or installs clutch shoes in just 3 easy steps. DTXR1110

Tool Sets

DTXR0400

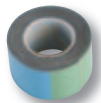

- Precision Car Tool Sets feature rubberized handles for increased control.
- 15-piece Ultimate Tool Set includes a zippered, book-style case

DTXR0400 Ultimate Tool Set w/Pouch (15 pc.)
 DTXR0401 Ultimate Tool Pouch
 DTXR0375 Precision Car Tool Set (Metric) (10 pc.)
 DTXR0380 Precision Car Tool Set (SAE) (10 pc.)

Servo Tape

Sold in 1" x 36" rolls.

DTXR1215

Ultimate Body Reamer

Extra-sharp point, razor-sharp flutes and a knurled aluminum handle with protective cap. DTXR1157

6" Long Nose Pliers

Ideal for wire cutting and stripping, with serrated jaws.

DTXR0300

Body Scissors

Curved, stainless steel blades cut through plastics without tearing.

DTXR1150

Car Wrenches

- Deluxe Wrench includes 6 socket head sizes; stores up to 4 glow plugs. DTXR1170
- Ultimate Wrench adds a slotted/Phillips screwdriver bit and 19 mm socket for 1/8 car wheel nuts. DTXR1175

Pit Tech™ Camber Gauge

Accurately measures camber settings in 1° increments, from +10° to -10°. DTXR1146

Power Shot™ Motor Cleaner

Ozone-safe spray quickly removes dirt and grime from electric motors. 12 fl. oz.

DTXC2458

ULTIMATE TOOLS

- Blue-anodized aluminum handles, engraved tip sizes and knurled surfaces.

- Hardened tool steel shafts with precision-ground tips.

Accessories

Pit-Tech™ Deluxe Car Stands

Workstation features a rotating upper plate with molded rubber insert grips. Base includes an extra-large parts tray.

- DTXC2370 Blue
- DTXC2371 Orange
- DTXC2372 Purple
- DTXC2373 Green

Pit Mats

The 5" x 5" is ideal for small parts and hardware. The 29" x 19" has room for your vehicle, heli or small plane, too.

- DTXP2045 5" x 5"
- DTXP2050 29" x 19"

Metric Hardware Sets

Sizes and quantities that modelers use most, organized in a compact, 10-compartment plastic case.

- DTXQ0100 Metric Phillips Head Screw Set (200)
- DTXQ0125 Metric Socket Head Screw Set (124)
- DTXQ0150 Metric Flat Head Screw Set (188)

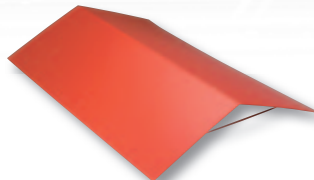

Body Repair Tape

Flexible, open-weave nylon mesh tape repairs Lexan®, ABS plastic and wood. 2" x 6' (50.8 mm x 1.8 m) roll.

DTXR1210

Kwik Ramp™ Portable Jump

Made of impact-resistant, corrugated polymer, with an adjustable angle.

DTXC2375

Track Bags

XL Deluxe is 27" x 14" x 12." 1/8 Deluxe Hauler measures 24.5" x 23" x 19;" features wheels and a retractable handle.

- DTXP2011 XL Deluxe
- DTXP2012 1/8 Deluxe Hauler Bag

Pit-Tech™ Tire Glue

Specially formulated for rubber tires.

- DTXR2000 Thin
- DTXR2002 Medium

Air Filter Oil

Handy 1.75 fl. oz. (51.7mL) bottle fits easily in a tool box or tote. DTXC2465

Shoe Goo® II

Clear, nonflammable compound dries strong and flexible. Ideal for body repairs, mounting servos, building battery packs and more.

DTXC2460

Pit-Tech Threadlocker

Medium strength, 0.2 oz. (5.5 g). DTXR2010

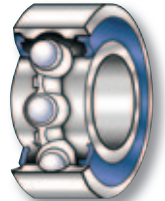

Kwik Trak™ Racing Cones

Set of six 6.5" cones. DTXC2377

Ball Bearings

Bearings are permanently lubricated and Teflon®-sealed to extend life (except DTXC1501, which has metal shields).

- Available in standard and metric sizes, in clamshell-packaged pairs.
- Visit duratrax.com for additional car-specific sets and 10-piece tubes for many sizes.

AC/DC PEAK CHARGERS

The right choice — for the right features at the right price.

As you compare brands, consider this: Onyx chargers have earned respect from pros, praise from owners and awards from industry magazines. You can spend more — or just enjoy standard-setting Onyx performance and savings.

Onyx chargers for NiCds and NiMHs — models 100, 200, 220 and 240 — range from basics-only to versatile units with LCDs, dual outputs and programmability. Models 230, 235, and 245 add LiPo/LiFe/Lilon compatibility and high-end options such as balancing.

All Onyx chargers feature:

- AC/DC input versatility
- Peak detection for NiCd and NiMH packs
- Multiple charge rates
- Auto-trickle
- Charge port for 4- and 5-cell Rx packs (except Model 230)
- Audio cues for setup progress and problems (except Model 100)
- Safety timer
- Standard connector
- 5-year limited warranty

For complete specifications and a side-by-side charger comparison, please see duratrax.com.

Onyx 100 Peak Charger

- Peak detection and AC/DC operation for the lowest price.
- Selectable charge range from 1A to 4A — for small 600mAh "AAA" cells to large sub-C size.

DTXP4190

Onyx 200 Sport Peak Charger

- Handles 4-7 NiCd or NiMH cells with 1.5, 3, and 5A charge current options.
- Adds five ramping LEDs to indicate charge status.

DTXP4200

Onyx 210 Peak Charger with LCD

- For 4-8 NiCd or NiMH cells — including 8-cell transmitter batteries.
- Easy-to-read LCD with blue backlight.

DTXP4210

Onyx 220 AC/DC Programmable Peak Charger with LCD

- For 4-8 NiCd or NiMH cells.
- Fully adjustable current and many programmable options.
- Advanced reversed LCD with backlight.

DTXP4220

DTXP4235

Onyx 235 Advanced Balancing Charger with LCD

- Handles 1-10 cell NiCd and NiMH packs, and 1-4 LiPo, Lilon or LiFe cells.
- Built-in balancing maximizes cell voltage and life.
- Standard, Traxxas® High-Current and Deans® Ultra Plug® connectors — plus ElectriFly® and FlightPower®/Thunder Power™ balancing boards.

Onyx 230 Advanced Charger with LCD

- Charge 1-8 cell NiCd and NiMH packs — and 1-3 LiPo, Lilon or LiFe cells.
- Adjustable charge current from 100mA to 7A.
- Ten battery memories.

DTXP4230

Onyx 240 Dual Peak Charger with LCDs

- For 4-8 cell NiCd or NiMH batteries.
- Two independent outputs with identical functions.
- Two built-in jacks for charging 4-5 cell Rx or 8-cell Tx packs.

DTXP4240

Onyx 245 Dual Balancing Charger with LCDs

- Two independent outlets...both with balancing and lithium-capable!
- Handles 4-8 cell NiCd and NiMH packs or 1-3 LiPo or LiFe cells.
- Standard, Traxxas® High-Current and Deans® Ultra Plug® connectors — plus ElectriFly® and FlightPower®/Thunder Power™ balancing boards.

DTXP4245

Onyx Balancing Boards

- | | | | |
|----------|------------------------|----------|------------------------|
| DTXP4155 | Onyx 235 — ElectriFly | DTXP4158 | Onyx 245 — ElectriFly |
| DTXP4156 | Onyx 235 — FlightPower | DTXP4159 | Onyx 245 — FlightPower |

Other batteries make charge/discharge rate claims that can't be proven. Onyx packs are "true" rated — which means they deliver on their performance promises!

Solid buys for brushed motors!

IntelliSpeed ESCs are installation-ready, and great values for both sport driving and racing.

Auto-Sport Forward w/Brake

Ideal for stock racing, sport drivers and 20+ turn motors! DTXM1055

Auto-Sport Forward/Reverse

Offers the same setup ease, plus on/off brake and reverse lockout for racing! For 18+ turn motors. DTXM1059

16T Mild-Modified Reversible

Adds setup versatility with user-settable reverse delay and traction control. For 16+ turn motors DTXM1065

12T Modified Reversible

Offers DTXM1065 versatility for an even wider range of modified motors. For 12+ turn motors DTXM1070

8T Racing Reversible

Great for up-and-coming competitors on a budget! Offers the lowest on-resistance and widest motor range of any IntelliSpeed ESC. For 8+ turn motors. DTXM1075

All IntelliSpeed ESCs feature:

- Proportional forward
- Proportional brake
- Twin setup LEDs
- Traction control
- Weight-saving 5V/1A BEC
- Thermal protection
- On/Off switch
- NiCd/NiMH compatibility
- Installed Futaba® J, bullet & standard connectors
- 120-day warranty

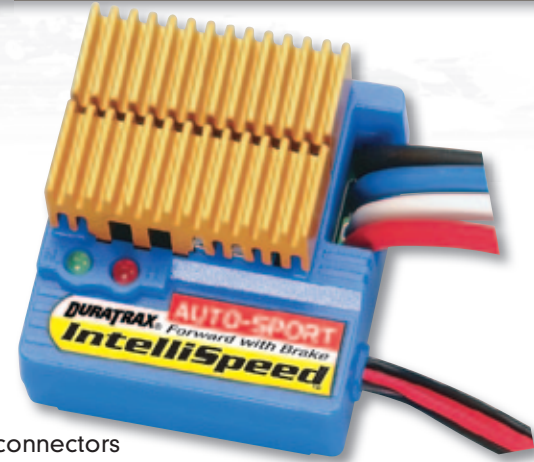

Auto-Sport ESCs features:

- Automatic setup
- 4-7 cell input
- Fixed traction control
- Reverse lockout*
- On/Off ABS Brake*

* DTXM1059 only.

Features of all other ESCs:

- 6-7 cell input
- Push-button setup
- On/Off ABS braking
- Reverse/reverse lockout
- 2 Reverse delay settings
- 3 Traction control settings

DTXM1055

Nitro Accessories

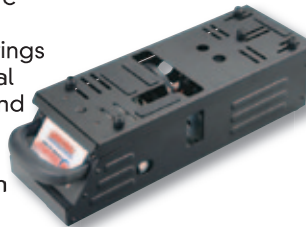

Micro Fail-Safe

Prevents runaways due to loss of signal or low Rx battery voltage by reducing the throttle to a setting you select. Sets up with push-button ease and works with 4- and 5-cell NiCd and NiMH packs. Universal connector included. 120-day warranty. DTXM4000

Kwik-Pit™ Universal Starter Box

Twin 550 motors and a durable belt drive offer reliable starting power for 1/8 and 1/10 on- and off-road engines. Ball bearings fight friction and a powder-coated metal case contributes corrosion resistance and good looks. Requires either a 12V, 7Ah field battery or two 6-cell NiCd/NiMH stick packs. Screws and mounts for both included. 90-day warranty. DTXP5701

Kwik-Pit™ Super Start™ RTR

Ball bearings, steel gears and an ultra-torque 540 motor provide fast, sure shaft starts for most 1/10 and 1/8 scale vehicles. Includes easy-press on/off switch and "universal" backplate for O.S.® 21VG and 30VG, SuperTigre® .27 and Force .21-.31 engines. 360° and Traxxas TRX 2.5 backplates also available separately.

DTXP6001 Super Start RTR w/360° Backplate (Universal)

DTXP6015 Traxxas® TRX 2.5

DTXP6034 360° Backplate Set 360°

FlashPoint™ Infrared Temperature Gauge

Just point and press for accurate, no-touch temperature readings of engines, motors, batteries and more. Works in seconds, but shuts down after 15 seconds of inactivity to preserve battery power. 1-year warranty. DTXP3100

Rapid Heat™ Glo-Starter

Twist one way, and it creates a vibration-resistant grip and sends current down the 1-3/4" socket to heat the glow plug. Twist the other way, and it comes free instantly. Includes 1500mAh Sanyo® NiCd, AC charger and vinyl tip cap. 1-year warranty. DTXP3000

Ultimate Glow Starters

All-aluminum Ultra Slim "AA" includes a 1.2V, 1800mAh NiMH cell; polystyrene Ultimates include a rechargeable NiCd and all feature the sure grip of the Twist-and-Lock tip! All include replaceable battery, charger and warranty.

DTXP0320 Ultra Slim "AA" Glow Starter

DTXP0310 Ultimate "C" Glow Starter

DTXP0315 Ultimate "D" Glow Starter

Kwik-Pit™ Fuel Bottles

A squeeze on the clear, plastic body lets you control fuel flow with ease — a 5"-long anodized aluminum spout features a curved tip for no-spill refills and a tip cap to prevent accidental leaks. For glow fuel only.

DTXP0125 250 cc (8.5 fl. oz.) Fuel Bottle

DTXP0150 500 cc (17.0 fl. oz.) Fuel Bottle

Brushless Motors, ESCs & Systems

SENSORED BRUSHLESS MOTORS

More Power to Get Dirty.™

Motors come and go. But Duratrax brushless motors — they're designed to last. They deliver what more expensive brushless motors promise for less, and do it with the smooth, stutter-free precision that only sensored motors can provide. Combine their 2-pole design with a 2- or 3-cell LiPo pack and you have all the speed and torque you need for any 1/10 scale vehicle. Each one is factory-tested to make sure it's up to specs — and a perfect performance match for the DE10 Brushless ESC.

10.5T Motor 3650kV (DTXC3435)

Current Motor	DTX Motor	Stock #
10-12 turn	DM8.5T 4450kV	DTXC3435
13-turn	DM10.5T 3650kV	DTXC3425
19-turn	DM13.5T 2850kV	DTXC3440
27-turn	DM17.5T 2250kV	DTXC3445

Look for these features in all DTX motors!

- Handwound armatures
- Powerful Neodymium magnets
- Dual precision ball bearings
- Shielded sensor cable with installed connectors
- 180-day limited warranty

BRUSHLESS PROGRAMMABLE ESC

Race-legal — and incredibly programmable!

With 19 programmable features, the DE10 is the most versatile ESC for 1/10 scale in Duratrax history. It offers more fine-tuning power than some high-end ESCs — and offers better value while doing it. It works with brushless motors down to 5.5 turns and brushed motors down to 4 turns. It has reverse and timing advance, but it's also ROAR-legal for racing. DTXM1300

Add the stand-alone Brushless ESC Digital Programmer and you can program like a pro. Functions are spelled out on the LCD for easy reference and programmed with a push-button. And it not only speeds and simplifies programming; it also stores a variety of data for post-race analysis. DTXM1350

DE10
Input: 6-cell NiCd/NiMH
 2S LiPo/LiFe
BEC: 6V/3A
Dimensions: 1.3 x 1.5 x 1.0 in (34 x 38 x 26 mm)
Weight: 2.9 oz (83 g)
Wires/Connectors: 13AWG wire w/bullet motor, universal radio and Traxxas and Deans® Ultra Plug® battery connectors.

1/10 3900KV BRUSHLESS SYSTEM

Brushless systems can be pricey. The Element, on the other hand, is priced less. Cost makes it an affordable upgrade for all lightweight 2WD off-roaders, including RTRs. But that's just the start. Both the motor and ESC are installation-ready. Sound cues on the ESC speed you through basic setup. There are eight programmable features, and three ways to program: manually; with the Castle™ programming card; or with Castle link software. And then there's the motor: a LiPo-compatible, sensorless powerhouse with torque and speed to spare. DTXC3122

Motor
Max Input: 2S LiPo
Dimensions: 1.42 x 1.85 in (36 x 47mm)
Weight: 6.55 oz (185 g)
Wires/Connectors: 13AWG wire w/bullet connectors

ESC
Input: 6-10 cell NiCd/NiMH
 2-3S LiPo
BEC: 7.4V/3A @ 2S Input
Max Current Rating: 100A
Dimensions: 1.8 x 1.4 x 0.79 in (46 x 35 x 20 mm)
Weight: 2.0 oz (57 g)
Wires/Connectors: 13AWG wire w/bullet motor, universal radio and Deans® Ultra Plug® battery connectors.
