

# MINI ALLIGATOR TOURS

Ready-to-Run FE Superboat

Now includes a  
Tactic TTX300  
2.4GHz Radio!

## Realistic and ready for action, anytime and anywhere

Learning to drive a full-size airboat can take months. But with the Mini Alligator Tours Airboat, getting comfortable behind the sticks takes just a few minutes. Since there's nothing to build, you can be on the water and learning to do skid turns almost immediately. It's a simple little boat that's perfectly sized for ponds, lakes and "grab & go" boating sessions. It's just as affordable as it is fun to run—and includes a Tactic TTX300 radio that's interference-free and dependable whether you're on your own or having fun with your friends.

### The Mini Alligator Tours airboat includes:

- Finished and assembled hull
- Factory-installed 380 motor and waterproof receiver/ESC unit
- Tactic TTX300 2.4GHz SLT radio with mini steering servo
- 6-Cell, 1100mAh NiMH battery with standard plug
- 12V DC field charger
- Plastic pusher prop
