

# GUNSLINGER™ P-27

Ready-To-Run Brushless 3S Crackerbox

**Fast.  
Fun.  
Unique.**

Until now, there's never been an R/C boat sporting a true crackerbox hull. Introducing the P-27 Gunslinger, a brushless, LiPo-ready off-shore racer that's the first of its kind. The unique hull design not only makes the P-27 Gunslinger fast on the water, but also very responsive and lots of fun to drive. Power is provided by a 6-pole brushless motor and 50A controller, and the included Tactic 2.4GHz radio system delivers confident control.

- Crackerbox racing hull with quality ABS construction
- 28mm CNC water cooling jacket
- 6-pole 28-56-1800kV brushless marine inrunner motor
- 50A brushless controller with stutter bump warning system and low-voltage protection (3S LiPo only)
- 3mm straight shaft drive system
- Kick-back rudder
- Offset FRP propeller, with spare prop included
- Center-mounted skeg
- Foam floatation
- Aluminum motor mount
- Water-tight radio box
- Hull drain plug
- Molded driver figures and engine hatch

#### AQUB1815

**Hull Length:** 28 in (711 mm)

**Overall Length:** 29.5 in (750 mm)

**Height:** 6 in (152 mm)

**Width:** 10.25 in (267 mm)

**Weight** (less battery): 37.5 oz (106.5 g)

**Requires:** LiPo battery packs; compatible battery charger
