

GP-1 ULTRA

Brushless Mini Hydroplane

Get in the race™

Brushless-powered and LiPo-ready, the GP-1 Ultra stands ready to take on the toughest compact boat competition. It's a true three-point hydro, designed to skim over the water at outrageous speeds. And you'll be enjoying them fast, too — the GP-1 arrives assembled and factory-finished, ensuring that you'll be out on the water in no time!

- Performance-engineered, pickle-fork ABS hydro hull with applied decals, factory-installed foam flotation, wedge breakaway rudder and mini hydro turn fin.
- Tactic TTX300 3-channel 2.4GHz SLT radio with TR325 receiver and mini steering servo.
- Factory-installed, water-cooled 28-35-2200kV inrunner brushless motor with water pickup.
- Water-cooled, LiPo-ready 30A brushless ESC with stutter-bump warning system, LiPo cut-off and Star Plug, bullet motor and universal radio connectors.
- Wire Drive system with 30 mm FRP prop and mini cinch motor coupler.

AQUB1819

Hull length: 16.4 in (416 mm)

Beam: 8.8 in (223 mm)

Weight: 14.4 oz (408 g)

Requires: 11.1V 1000mAh LiPo battery and (4) "AA" batteries

Recommended Products

- GPMP0830** ElectriFly 11.1V 1000mAh LiPo Battery w/Star Plug
- DTXP4704** Duratrax Onyx "AA" Alkaline Batteries (4)
- GPMM3318** ElectriFly 3S AC/DC LiPo Smart Balancing Charger

Recommended Options

- AQUB9500** AquaCraft Models GrimRacer Speed Grease
- AQUB9514** AquaCraft Models GrimRacer Pro Radio Box Tape
- GPMP0836** ElectriFly 11.1V 1200mAh LiPo Battery w/Star Plug
- DTXP4235** Duratrax Onyx 235 AC/DC Advanced Balancing Charger
- GPMP0751** ElectriFly SafeCharge LiPo Battery Charge Bag
