

GP-1 ULTRA

Brushless Mini Hydroplane

Get in the race™

As the first AquaCraft mini hydroplane that's both brushless AND LiPo-ready, the GP-1 Ultra one-ups the compact racing boat competition! Power is provided by a water-cooled 6-pole inrunner brushless marine motor; the RTR's Tactic SLT radio offers confident control. A unique "break-away" rudder system swings back upon underwater impact to prevent hull damage. The GP-1 Ultra comes factory-finished, in your choice of ready-to-run (RTR) and Receiver-Ready (Rx-R) versions.

- 2200kV inrunner brushless marine motor
- Water-cooled LiPo-compatible 30A brushless ESC
- Deans® Ultra Plug® connector
- Water-cooling motor jacket
- Mini cinch motor coupler
- Wire drive system and prop
- Break-away rudder system

Deans® and Ultra Plug® are registered trademarks of W.S. Deans Co. U.S. Patent No. 5,533,915

AQUB1820 – Ready-to-Run (RTR)

AQUB1821 – Receiver-Ready (Rx-R)

Hull length: 16.4 in (416 mm)

Overall length: 18 in (458 mm)

Width: 8.8 in (223 mm)

Height: 4 in (102 mm)

Weight: 14.4 oz (408 g)

RTR requires: 11.1V 1000mAh LiPo battery, charger & 4 "AA" batteries

Rx-R also requires: 2-channel radio
