

Miss Seattle

Brushless Unlimited Hydroplane RTR

Unlimited Racing Excitement!

The Miss Seattle U-16 is engineered to bring the excitement of Unlimited Hydroplane Racing to a lake or pond near you! It's pre-assembled and loaded with performance features. A water-cooled 2200kV inrunner brushless marine motor delivers the power you need to accelerate to planing speeds, and the performance-engineered ABS hull does the rest! A host of other features, like a 2.4GHz radio system, powerful 30A ESC with stutter-bump warning system and a rudder safety system add to the ease, fun and safety of operating the Miss Seattle. Best of all, the Miss Seattle comes Ready-to-Run—just drop in the battery of your choice, tape the hatch and let it rip!

- Blaze over the water with ultra-fast hydroplaning technology
- High-performance hull, radio and motor
- 2-piece cowl and included tape for superior seal

AQUB1822 – RTR

Hull Length: 16.75 in (425 mm)

Overall Length: 18 in (458 mm)

Width: 8.5 in (216 mm)

Height: 4 in (102 mm)

Weight: 17.1 oz (485 g)

Includes: 2200kV marine brushless inrunner motor, CNC water cooling jacket, 30A ESC, TTX300 2.4GHz radio system, applied graphics and all running hardware.

Requires: 3S LiPo battery and charger.
