

Mini Rio

Ready-to-Run Offshore Superboat

Now includes a
Tactic TTX300
2.4GHz Radio!

Superboat thrills — race-anywhere size!

Perfect even for small ponds, the Mini Rio is ready to make waves almost immediately. Low in price and ready-to-run, it offers the strength of ABS construction plus a watertight, low-maintenance hull. Its superboat style is enough to turn heads, but the Mini Rio backs that up with a powerful 380 motor, Micro Flex drive and dual-wedge steering to make it a solid one-two punch of authentic appearance and fast, responsive performance.

The Mini Rio includes:

- Finished ABS hull with factory-applied decals and rubber side rails
- Tactic TTX300 3-channel radio with steering servo
- Installed water-cooled 380-size motor and waterproof receiver/ESC with automatic linking
- Installed Micro Flex drive with a 30 mm fiberglass prop
- 6-cell, 1100mAh NiMH battery
- 30-minute 12V DC peak charger
