

RESCUE 17™

Ready-to-Run Electric Scale Fireboat

The hull gleams, the lights shine — and the water cannon really works!

Authentically detailed — and ready for action!

It's a one-of-a-kind fireboat — and it's ready to hit the water just moments after it's out of the box. It's more than a large-scale, ready-to-run fireboat; it's the only one that offers such a broad range of fine detail with the ease of factory installation. There are working lights in the cabin and on the communications mast, rotating, working water cannon on deck and authentic detail everywhere else you look, too. It makes superb scale details easy to enjoy — and it's so complete, all you add are batteries and a charger.

Includes:

- Finished, assembled fiberglass hull, deck and superstructure
- Tactic TTX490 4-channel 2.4GHz SLT transmitter
- Factory-installed:
 - 10-piece LED lighting system
 - 600-size motor
 - Water-cooled, waterproof and LiPo-compatible 11.1V ESC
 - TR400 4-Channel 2.4GHz SLT receiver
 - Water pump, servos, linkages and drive system

- Water cannon rotates 120° — and shoots a stream of water up to 10 feet.
- Bright, 10-piece LED lighting system
- Arrives with all scale details installed.
 - Wire rope deck railing
 - Ladders and stairways
 - Water cannon with high-capacity pump
 - Radar and radio masts
 - Windows, searchlights and more.
