

CAJUNTM

commander

Ready-to-Run Brushless Airboat

BLAST DOWN THE BAYOU.

The Cajun Commander arrives decked out with dynamic detail! All electronics are in place, and so is a Tactic 3-channel 2.4GHz SLT radio for precision control.

Made of durable ABS plastic, the Cajun Commander's high-performance flat bottom hull provides the stability boaters need to pull off exciting maneuvers on water, snow or dry grass. The camo trim scheme is printed directly onto the plastic for lasting looks.

Other scale highlights include a factory-painted metal propeller cage, a 12-piece LED spotlight system, a replica V-8 engine with headers, an air cleaner and exhaust system. All that's left to add are a 3S LiPo battery, charger and "AA" batteries!

- 1800kV outrunner brushless motor
- Waterproof, air-cooled 50A ESC w/Star™ Plug
- Tactic 3-channel 2.4GHz SLT radio
- 12-piece LED spotlight system
