

# Speed Pack LiPo Batteries

## The first packs designed specifically for marine racing.

There are two ways to tell which boats are running GrimRacer Speed Pack LiPo batteries. One is by the distinctive, bright yellow shrink wrap that makes Speed Packs so easy to spot. The other is by their standout performance. Speed Pack batteries have been designed and tested specifically for boat hulls and boat racing, by modelers who race boats and win. It shows.

- Available in a cell number, voltage and capacity that's just right for your kind of racing!
- Brute 10-gauge discharge leads can handle race winning current — and include genuine Deans® Ultra Plug® connectors.
- All packs also feature ElectriFly® style balancing plugs.

Deans® and Ultra Plug® are registered trademarks of W.S. Deans Co.  
U.S. Patent No. 5,533,915
