- Printed and decaled polycarbonate body
- Factory-installed motor, waterproof receiver/speed control and steering servo
- D100 2-channel 2.4GHz radio
- Proven four-wheel shaft drive for balanced traction and handling
- Gear differentials for reliable power
- Oil shocks for superior dampening
- Mounted high-traction tires with foam inserts
- Ball bearing equipped
- Adjustable suspension with lower CG
- Improved servo saver for precise steering control

Conquer rugged terrain!

With Dromida's Rally Car, Baja-style bashing is as close as your back yard. This vehicle is all about on- and off-roading with attitude, combining speed and handling with extraordinary toughness. Its Ready-To-Run convenience is a bonus that both R/C beginners and rally car fans will appreciate.

Take on unforgiving environments without fear: four-wheel drive, high-grip tires and waterproof electronics make you the master. A foam front bumper minimizes any impact damage to the rally-style body. And it comes with extras such as a 2.4GHz radio, NiMH battery and charger.

The Rally Car is available with a Torque 370 brushless motor, as well as with a 5300kV brushless motor for even greater performance. Choose your ride, and get ready for off-road adventure!

Both Rally Cars include:

- Assembled vehicle
- Printed and decaled body
- Factory-installed motor, receiver/speed control and steering servo
- D100 2.4GHz radio system with trims, dual rates and servo reversing
- Rechargeable NiMH (Nickel-Metal Hydride) battery
- 100-240V AC charger with international plug inserts
- 4 x "AA" batteries
