

# VISTA UAV

251 mm Intense Performance Drone

**DIDE03\*\***

**Diagonal:** 251 mm (9.8 in)

**Weight:** 122 g (4.3 oz)

**Requires:** nothing!

## The dynamically durable drone!

Dromida is proud to introduce the Ominus' bigger brother, the Vista UAV. The Vista UAV is as easy to fly as it is tough...and it's really, really tough! This ready-to-fly quadcopter comes with absolutely everything you need to fly as soon as you open the box. It includes an auto flip button, four flight modes, three-axis gyro stabilization for improved control in every flight, vivid, eye-catching LEDs for easier tracking day or night and extra-long flight times to keep you in the air longer and on the charger less.

- Crash-tough.
- Easy flight for all skill levels.
- Do flips, rolls and twists.
- Vivid, eye-catching LEDs.

### Includes:

- Fully assembled Vista UAV quadcopter
- SLT radio system
- LiPo battery and USB charger
- "AAA" batteries
- Extra set of blades
- Screwdriver

### Features:

- Intense LED lights – For easier tracking, day or night.
- Easy, normal, advanced and expert flight modes – Customize flights to your experience level.
- Advanced stabilization – Three-axis gyro and three accelerometers.
- Long flight times – Spend more time in the air instead of charging.
- Auto-flip button – For instant, pro-level flips.

## Available in four colors!
