

VISTA FPV

Ready-to-Fly 251 mm FPV Camera Drone

Available in four colors!

Stock Numbers:

DIDE04BB Blue
DIDE04GG Green
DIDE04NN Orange
DIDE04YY Yellow

The complete, "can-do" camera drone

The Vista FPV itself is impressive. But what you can do with it is simply amazing.

Download the DroneView app, and you can enjoy FPV (First Person View) flight on your smartphone, shoot videos and photos and store images onboard and download them directly to a personal device.

You can count on it to remain stable and level in a hover, deliver pro-perfect flips on command and adapt instantly to your flying skills. Whether the Vista FPV is your first drone or your fifth, one thing is certain: it's bound to be your favorite.

- Shoots 720p video and photos with the push of a button.
- Features an ISO anti-vibration camera mount that can be removed for aerobatics.
- Includes a 3-axis gyro for stable flight and 3 accelerometers for near-motionless hovering indoors or out. Accelerometers can be turned off for more aerobatic performance.
- Offers four flight modes for customizing response and performance.
- Flies up to 12 minutes on a charged pack and recharges on any USB port.
- Smartphone holder eliminates the need and cost of separate viewscreens or goggles.
