

# DLE-61 GASOLINE ENGINE

## MORE POWER AT LIGHTER WEIGHT

*Includes mufflers,  
electronic ignition  
and more!*

### **DLEG0061**

**Displacement:** 61.0 cc (3.7 cu in)

**Bore:** 1.85 in (47 mm)

**Stroke:** 1.38 in (35 mm)

**Total Weight:** 3.86 lb (1.75 kg)

**Output:** 6 hp @ 7,500 rpm

**Includes:** Electronic ignition module, muffler, spark plug, standoffs, spiral wire wrap & connector safety clips.

**Requires:** unleaded gasoline, 2-cycle oil, ignition battery & propeller

**Suggested Propellers:** 22x10, 23x8, 23x10, 24x8

## ***R/C's best buy in gas power!***

Innovation is excellence; so, when DLE added innovations like magnesium alloy crankcases, improved crankshaft bearings, and a better piston/cylinder fit to their engines, serious R/C pilots got very excited. The DLE-61 weighs four pounds and cranks out over six horsepower from a durable and long-lasting engine.

Extras like an airplane-specific carburetor, muffler, standoffs and electronic ignition boost performance even further. It's a solid 60cc engine at the best price you'll find.
