

DLE-222 FLAT FOUR GASOLINE ENGINE

R/C'S BEST BUY
IN GASOLINE
PERFORMANCE!

Big Power for Big Aircraft

At 21.5 horsepower, the DLE-222 has more than enough power to pull your plane through the air. And with an all-up weight of just over twelve pounds, it has the power-to-weight ratio to make the most of it. Dual carbs help you fine tune it, sealed bearings keep it running smoothly and two mufflers keep it down to a dull roar. And when you consider that you also get electronic ignition, mufflers, standoffs and a 6-bolt prop hub, it's obvious that the DLE-222 is the most impressive gas engine value available.

DLEG0222

Displacement: 13.6 cu in (222.5 cc)

Bore: 1.77 in (45 mm)

Stroke: 1.38 in (35 mm)

Weight: 12.37 lb (5.61 kg)

RPM Range: 1,000-7,500

Output: 21.5 hp @ 7,500 rpm

Requires: unleaded gasoline, oil, two ignition batteries & propeller

Includes: dual electronic ignition, 2 mufflers, 4 spark plugs, gaskets, bolts, machined aluminum standoffs, 6-bolt prop hub, throttle arm extension, mount & mounting template
