

DLE-20RA Gasoline Engine

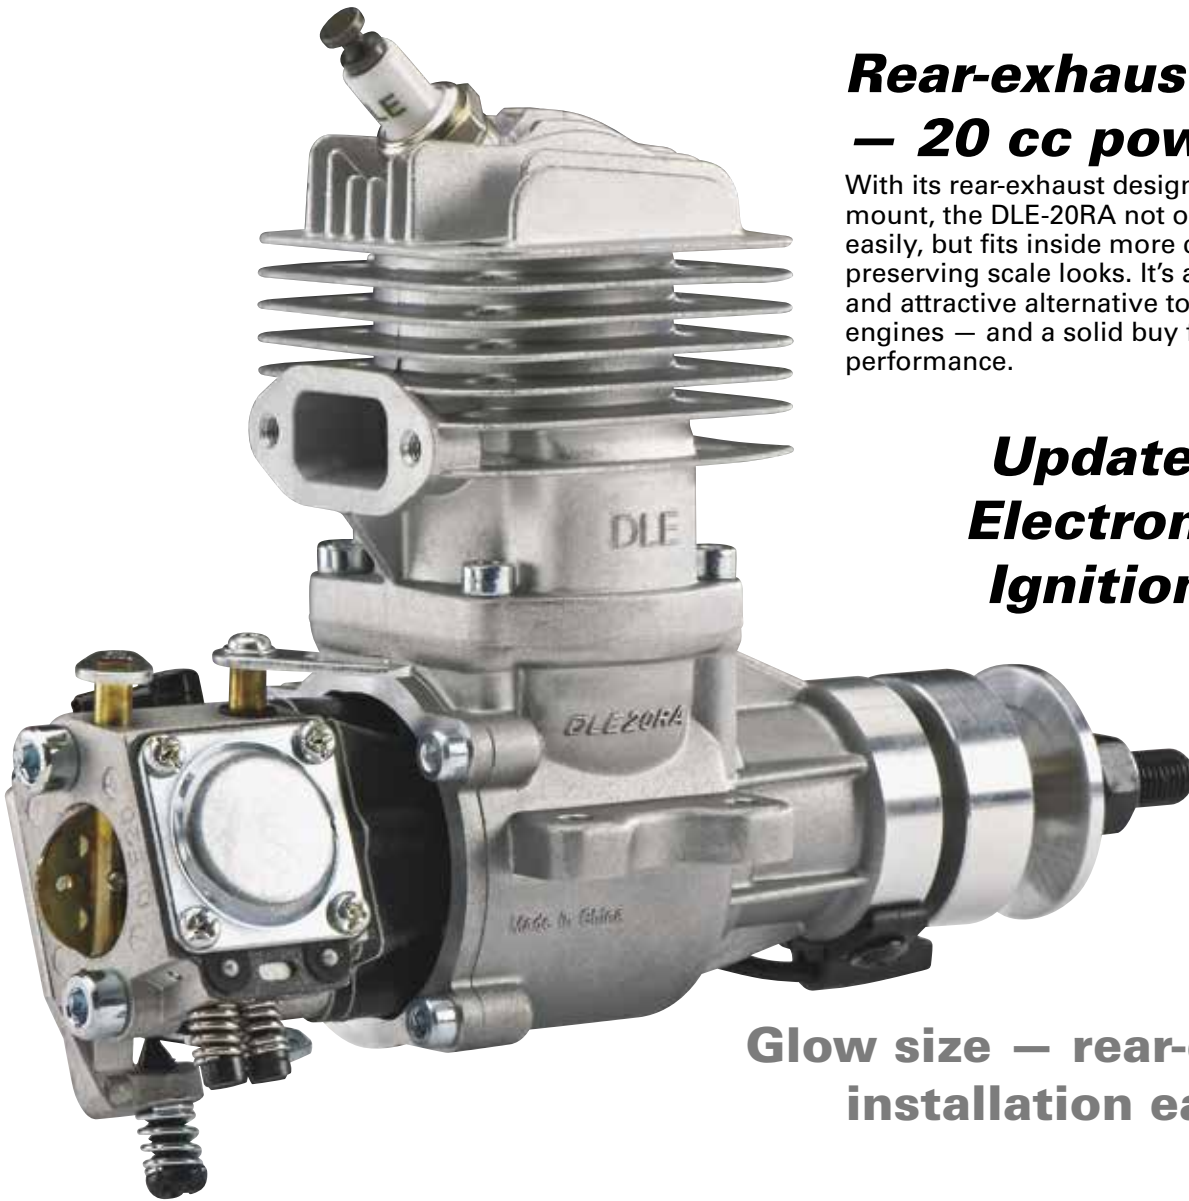

R/C's best buy in gas performance!

Rear-exhaust design – 20 cc power!

With its rear-exhaust design and beam mount, the DLE-20RA not only installs easily, but fits inside more cowls, preserving scale looks. It's a powerful and attractive alternative to glow engines — and a solid buy for value and performance.

Updated Electronic Ignition!

Glow size — rear-exhaust
installation ease!

DLEG0420

Displacement: 20.0 cc (1.22 cu in)

Bore: 1.26 in (32 mm)

Stroke: 0.98 in (25 mm)
