

DLE-55RA GASOLINE ENGINE

MORE POWER!

R/C's best buy in gas power!

Producing 100 rpm more than the DLE-55, the DLE-55RA screams performance — from the lightweight piston skirt that speeds throttle response to the rear exhaust design that permits easy tuned pipe installation. Ideal for warbirds and aerobatic aircraft, it comes with engine standoffs, electronic ignition, spark plug and Pitts style muffler.

- Electronic ignition system handles voltages from 4.8V to 8.4V, with redesigned circuitry and software for improved idle and throttle transition.
- Lightened piston skirt improves throttle response, fuel economy and resistance to wear.
- Included 2-stage Pitts muffler reduces back pressure and increases power.
- Advanced CNC machining, tight tolerances and refined porting improve compression and fuel burning efficiency to raise performance and reduce exhaust residue.

DLEG0455

Displacement: 55.6 cc (3.4 cu in)

Bore: 1.77 in (45 mm)

Stroke: 1.38 in (35 mm)

Total Weight: 3.74 (1.7 kg)

RPM Range: 1,500-8,500

Output: 5.5 hp @ 8,500 rpm

Requires: Unleaded gasoline, oil, ignition battery & propeller

Includes: Electronic ignition, muffler, spark plug, engine standoffs, integrated choke rod guide & rear-mounted carb
