

# LOADED WITH REALISM!

## EVADER™ DT

A ready-to-run, 1/10 scale, 2WD electric pre-runner truck.

Sick scale detail — at a sweet low price. It's a combination that makes the 1/10 scale Evader DT absolutely one-of-a-kind. Killer custom style surrounds the tough-as-nails 2WD chassis. Realistic off-road wheels and tires tuck neatly beneath the painted pre-runner body. Bumpers, skid plate, roll bar, light bars, mirrors, truck bed with cooler and functional spare tire...it's all here, adding up to an RTR rig that *rocks*.

### FACTORY-EQUIPPED FOR PERFORMANCE AND DURABILITY:

- **Tactic™ 2-channel radio system with TSX200 steering servo and 2-channel receiver.**
- **Photon Speed™ 2 motor for quick acceleration and impressive top-end speed.**
- **Sprint™ 2 electronic speed control with brake and reverse.**
- **Oil-filled shocks with long-lasting, leak-resistant metal caps.**
- **Rugged MagnaFlex™ bumper and skid plate.**

### STRESS-TECH™ PARTS GUARANTEE

Evader DT Stress-Tech Parts are so durable, they're guaranteed! If any Stress-Tech part on your Evader DT breaks during the first year you own your vehicle, DuraTrax will send you a replacement part — FREE! See the instruction manual for details.

Enjoy pre-runner action in four striking colors.
