

VW BAJA BUG

READY-TO-RUN 1/10 SCALE EP 2WD

The Blast from the Past!

The VW Baja Bug of the '60s offered legendary toughness and performance. Now, you can share in the off-road excitement with this officially licensed, 1/10 scale replica. It takes harsh terrain in stride, sand dunes as easily as dirt roads — and rainy weather just as confidently as perfect driving conditions. It has MagnaFlex™ components in critical areas for durability — and 1-year Stress-Tech™ FREE Replacement Guarantee to back it up.

It's ready-to-run, affordable fun as is, but can easily be hopped up with a wide variety of existing Duratrax option parts.

DTXD36**
