U.S.A. and Canada only

THE BASICS AND A LITTLE BIT MORE!

The Onyx 200 offers a major move up in ease and value for a very modest difference in price. A push button and slider switch let you set up a charge simply; multi-color LEDs and audible tones let you track charge status and other developments the same way. And like the Onyx 100, the Onyx 200 switches to trickle-charge rates after peak is reached, to keep the pack topped off and ready to go whenever you are.

DTXP4200

Input: 110V 60Hz AC/11-15V DC

Battery types: 4-7 NiCd or NiMH cells

Battery capacity: 750-7500mAh

Fast charge current: 1.0A, 3.0A & 5.0A (40W max)

Fast charge termination: peak detection

Input connections: AC lead w/plug; DC lead w/alligator clips

Peak sensitivity: 8mV, fixed

Auto-trickle current: 1/20 fast charge setting

Output connection: lead w/standard connector; universal jack for charging 4-5 cell Rx packs or voltmeter use

Setup: push button; slider switch

Display: 5 multi-color LEDs (charge status)

Dimensions: 5.7 x 4.6 x 1.6 in (146 x 117 x 41 mm)

Weight: 17.1 oz (484 g)

Safety/Protection: solid-state reverse polarity and current overload circuitry; 90-minute safety timer & audible alerts

For complete specifications, visit the Onyx 200 web page on Duratrax.com

- *Great for electric car, boat, buggy, truck and truggy power packs, or nitro receiver packs.*
- *Includes an AC plug for workbench use, plus a built-in power supply and alligator clips for the trackside charging.*
- *Rugged and impact-resistant, with built-in electronic safeguards that protect the pack, the modeler and itself.*
- *Auxiliary jack lets you charge receiver packs or monitor charge voltage with a voltmeter.*
- *Compact and under a pound in weight for easy carrying and simple storage.*
