## AC/DC Dual Peak Charger

**5 YEAR**  
LIMITED  
WARRANTY  
U.S.A. and Canada only

## TWICE THE PEAK CHARGING CAPACITY IN ONE GREAT PRODUCT!

Though just over a pound in weight, the Onyx 240 offers two independent chargers in the same compact case. Both sides offer the same charging features — and each has one output for power packs and another for radio packs. That gives you the ability to peak a power pack, two power packs at once, two radio packs at once...or a power pack and a radio pack simultaneously. You can use it to cut charge time for dual-battery models in half — or to keep the fun going by charging one pack while you run another.

### DTXP4240

**Case size:** 8.0 x 6.0 x 2.0 in. (202 x 153 x 50 mm)

**Weight:** 27.8 oz. (789 g)

**Input connections:** AC lead w/plug; DC lead w/alligator clips

**Battery types:** 4-8 NiCds or NiMHs

**Battery capacity:** 750-7500mAh

**Fast charge current:** 0.8, 1.5, 3.0 & 5.0A (40W max)

**Fast charge termination:** peak detection

**Peak sensitivity:** 8mV (NiCds)/4mV (NiMH)

**Trickle current:** 1/20 fast charge setting (auto)

**Output connections:** leads with standard connectors; universal jacks for 4-8 radio packs

**Setup:** 3 push buttons

**Programmable functions:** 2

**Display:** 7-segment, blue-backlit LCD

**Data displayed:** cell chemistry; output and peak voltage; charge current, capacity and time; alerts

**Safety/Protection:** solid-state reverse polarity and current overload circuitry; 90-minute safety timer; audible alerts

- Offers two independent chargers with identical features, functions, controls, outputs — and backlit LCDs.
- Ideal for at-home use, but includes a tiny, built-in AC power supply for easy use at the track or lake.
- The only charger you need. It peaks NiCd and NiMH power packs, as well as 4-, 5- and 8-cell radio packs.
- Features push-button controls and sound cues to simplify setup, and separate, blue- backlit LCDs for easy viewing, regardless of ambient lighting.
