

# playmate™

## Instant airtime — anywhere!

No time for a trip to the field? Fly the Playmate right where you are — in your yard, in a park, or turn a large indoor area into a handy, all-weather flying site. It's available as an all-in-one RTF with radio, or in a Tx-R version you can fly with an SLT transmitter, or your radio and the AnyLink2. You get a winner either way, because both arrive assembled and finished, with factory-installed electronics and landing gear for ROG takeoffs.
