FLIGHT STABILIZATION

master the art of flying

## A smart choice for any pilot.

The Sensei FS electric trainer takes learning to fly to new levels of ease and excitement. The innovative WISE 3-axis stabilization system is just like having a flight instructor standing right next to you, ready to instantly take over if you lose control. A powerful brushless motor delivers the performance necessary for sport aerobatics as your skills improve, and the "drop-door" feature lets you deliver a "payload" of your choosing!

**Equipped with the innovative WISE  
3-axis stabilization system!**

**RTF**
