

**AIRcore**<sup>™</sup>  
Modular aircraft system

# P-51 "Cathy II"

Throughout WWII, the P-51 was one of the Allies' most important assets, combining superior speed and firepower with maneuvering might. Flyzone has captured everything you love about the full-size Mustang in this detailed replica. Like all AirCore aircraft, the P-51 is Power Core Ready – it installs and aligns with magnets – so you can be airborne in an instant!

FLZA3904

Wingspan: 22 in (560 mm)
