

A6M2 ZERO

unmatched maneuverability

FLZA4320

Wingspan: 45 in (1145 mm)

RTF Weight: 2.25 -2.5 lb (1020-1130 g)

Length: 37 in (940 mm)

Wing Area: 307 in² (19.8 dm²)

Wing Loading: 17-19 oz/ft² (52-58 g/dm²)

Requires: Nothing!

Includes: Factory-finished airframe w/LED nav lights & electric retractable landing gear, TTX600 6-Channel 2.4GHz SLT Radio w/receiver & servos, 1000kV outrunner brushless motor, 40A brushless ESC, 11.1V 2200mAh LiPo battery, AC/DC balancing charger & (4) "AA" batteries,

Designed with the speed, versatility, and maneuverability of the original in mind, the Flyzone A6M2 Zero comes equipped with an exceptionally detailed AeroCell airframe, LED navigation lights, fully-functional flaps, a detailed pilot figure, and a bomb drop.

It comes in two versions—Tx-R and RTF. If you own a radio, AnyLink adapter, and 3S LiPo battery, the Tx-R can be in the air in minutes. The RTF comes ready to take your flights to greater heights. Just charge the battery, get out and fly!

FLZA4322

Wingspan: 45 in (1145 mm)

RTF Weight: 2.25 -2.5 lb (1020-1130 g)

Length: 37 in (940 mm)

Wing Area: 307 in² (19.8 dm²)
