

AIRCORE™

Modular aircraft system

POWER CORE™

Snap the Power Core into any AirCore airframe and you're ready to fly. The revolutionary Power Core contains all the power and control components of your airframe, allowing you to field a large array of airframes with a single Power Core. Fly any airframe with one Power Core and one radio—that's the AirCore advantage!

Requires: AirCore Power Core, 4-channel SLT transmitter *or* AnyLink2 and compatible 4-channel transmitter, 7.4V 250mAh LiPo battery and compatible charger

*LiPo battery & propeller shown not included.

**The Power Core
will fly all these
AirCore Airframes
and more!**
