

# FlightPower™

Quite simply, the  
#1 LiPo battery  
line in the world!

## The new ultimate in on-the-edge 3D performance!

For the pilot who wants the absolute best in discharge rate, FlightPower offers nothing that's better than the FP70 Series. Their continuous discharge rate is higher than the burst rates on most LiPo packs. Quite literally, FP70 packs give you the power to go to extremes: to bring the biggest heli blades up to speed in record time and to pull off the most outrageous 3D maneuvers with amazing ease. Also available: FP25 and FP30 packs for sport flying, FP50 packs for competition and FPRX packs for dependable receiver power.

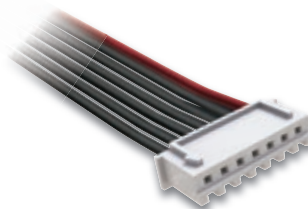

Discharge Rates: 70C continuous/140C burst

Maximum Recommended Charge Rate: 3C

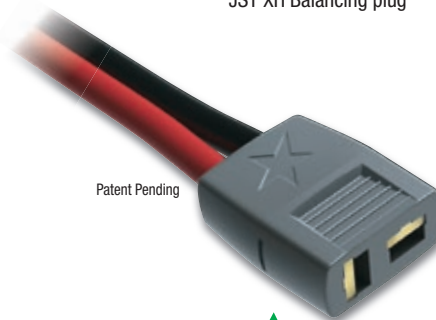

Leads: multi-strand wire w/silicone insulation.

Connectors: JST XH balancing (all)  
Star Plug (all)

- Created for premium power and like-new performance after 100, 200, 300 or more cycles!
- Color-coded labels make each series easy to identify with just a glance.
- New connectors — All FP70 packs now feature the popular JST XH balancing plug as well as the new high-efficiency Star Plug.
- New ultrasonically welded cell tabs and balancing leads for superior strength and dependability.

JST XH Balancing plug
