

FPRX

Reliability that just won't quit.

Podium performance requires superior control — and FlightPower FPRX LiPos put it at your fingertips. They're lighter and longer-lasting than either NiCds or NiMHs, with the capacity to handle power-hungry digital servos and ability to handle sudden current demands in stride.

Discharge Rates:

Maximum Recommended Charge Rate: 1C

Leads: multi-strand wire w/silicone insulation.

Connectors: JST XH balancing plug (all)

(2) universal connectors (all)

- Created for premium power and like-new performance after 100, 200, 300 or more cycles!
- Color-coded labels make each series easy to identify at a glance.
- New balancing connector — All balanced FP packs now feature the most commonly used balancing plug in the R/C industry: the JST XH.
- New ultrasonically welded cell tabs and balancing leads for superior strength and dependability.

FPRX Series

FPWM1132	2S 7.4V 1300mAh
FPWM1162	2S 7.4V 1600mAh
FPWM1192	2S 7.4V 1900mAh
FPWM1212	2S 7.4V 2100mAh
FPWM1322	2S2P 7.4V 3200mAh
FPWM1422	2S2P 7.4V 4200mAh

Look for FlightPower packs and performance wherever you see the bright metallic orange shrink!
