

# Futaba® 3PM-X

3-Channel 2.4GHz FASST Computer System

## The 3PM you've wanted!

### One radio for racing, crushing, crawling, bashing and boating!

There's no need to buy separate systems for every application. The 3PM-X handles them all for a single, affordable price and gives you FASST 2.4GHz dependability as a bonus.

It offers all the conveniences and features of the original 3PM FASST system, plus these new performance and programming pluses!

- **Four-wheel Steering Mix**

Two modes give you a choice of two or four 4WS options — and the ability to switch between them with the push of a button. Choices include: 1) Crab; 2) All-wheel steering; 3) Front-wheel only; or 4) Rear-wheel only.

- **Digital Trim Steps**

16 settings — amazing ease. Set at 16 for coarse initial settings — or at 1 for fine-tuning finesse.

- **Adjuster Function**

Ensures optimum performance by keeping throttle and steering throws and centering at programmed ideals.

- **3-Position**

Channel 3 Programming

- **Programmable Mixing**

- **10-model memory**

- **Simple, 4-button programming**

- **Model naming**

- **Assignable switches/functions**

- **Digital trims and memory**

- **Normal/HRS modes**

- **Servo reversing, sub-trims & EPA (all channels)**

- **Throttle expo, acceleration, mode select & fail-safe**

- **Steering expo, dual rates & servo speed**

- **Anti-lock braking system w/adjustable return, pulse cycle and delay**

- **Brake mixing for larger models**

- **Electronic ATL**

- **2 conditions**

- **Up/Down timer w/100-lap & total time memory**
- **Low-battery alarm**
- **LCD screen**
- **Wheel tension adjustment**
- **Charge jack for optional NiCds**
- **Battery fail-safe**
- **Requires: 8 "AA" alkaline batteries & servos**
- **1-year limited warranty.**
