4PKS-R

4-channel 2.4GHz Computer System

The ``more´´ racing radio.

What does the 4PKS-R offer the serious competitor? In a word, more. 5% more speed than the previous 4PKS. More features, including dual ESC and gyro mixing, 2 programmable mixes and every feature that made the 4PKS a success. And more value — more radio for the money. The features list below is just a sample. The complete list is on futaba-rc.com. Ready to get serious about racing? Then get more. Get the 4PKS-R.

FUTABA ADVANCED SPREAD SPECTRUM TECHNOLOGY
2.4GHz
FASST™

SS: Features
• 2 programmable mixes
• Dual ESC/Gyro/4WS/Brake/Engine tilt mixing
• Data transfer between 4PKS-R and 4PKS systems*
• (2) dual-rate conditions
• Menu Select & customizing
• Direct Select
• 40-model memory
• Model select, copy & reset
• 10-character model & user naming
• Anti-lock braking (ABS) w/6 adjustments
• Up/down/system/lap timer w/100-lap memory
• Digital trims w/reset & step select
• Assignable functions (switches, dials & trims)
• Edit button & trim/dial locks
• Adjustable tension & position (wheel & trigger)
• Right-/left-hand operation
• MC-Link
• Backlit LCD with power-off alarm and adjustable contrast
• Boat brake on/off & engine tilt mixing
