18SZ FASSTest, FASST, T-FHSS, S-FHSS Radio System

**It's here. It's the one
you've been waiting for.**

An incredibly sophisticated 18-channel marvel, the 18SZ is perfect for pro pilots and weekend wingers alike. It offers most of the functions, features, and flight conditions of top-of-the-line systems at roughly a third of the price of the 18MZ.

Leading off its list of features is full telemetry functionality. The 18SZ is set up to receive temperature, RPM, altitude, GPS, voltage, current, and data logging telemetry information, keeping you more tightly riveted to your aircraft than ever before. And, its intuitive full touchscreen display and extensive flight times make it the radio every serious pilot needs at the field.

Features:

- 4.3 inch fast, full-color touch LCD screen for quick, clear viewing and menu surfing
- 8 flight conditions to customize every flight to your flying situation
- Telemetry-temp, RPM, altitude, GPS, voltage, current, and data logging
- Expandable, 30-model internal memory to save your settings for all your aircraft
- 6.6V 2100mAh LiFe battery for 7 to 8 hours of operation
- Telemetry voice messages keep you up to date on vital statistics
- User-updateable software lets you keep your radio cutting edge
- 2 side levers, 6 digital trims, 8 toggle switches for every function you can dream
- Quad bearing stick assemblies
- Speaker and earphone jack for audible telemetry announcements

Airplane Features:

- 13 wing types
- 3 tail types
- 2 rudder types
- Flap setting
- Aileron differential
- Aileron mixes
- Rudder mixes
- Camber mixes
- Elevator mixes
- Snap roll
- Airbrake mix
- Multi-engine
- Gyro sensor

Helicopter Features:

- 8 swash types
- 17 point pitch/throttle curve
- Acceleration
- Throttle hold
- Swash/Throttle/Pitch mixing
- Gyro sensor (3)
- Governor
- Condition hold
- Hovering pitch/throttle
- Swash AFR
- Swash setting
- Swash ring
- Throttle limiter
- Motor mix

Glider:

- 13 wing types
- 3 tail types
- 2 rudder types
- Flap setting
- Aileron differential
- Aileron mixes
- Airbrake to elevator mix
- Camber/elevator to camber mixes
- Butterfly mixing
- Butterfly to elevator
- Ailelevator
- Winglet
- Motor mix

Multicopter

- Gyro
- Self Neutral Stick

Telemetry Functions:

- Temperature
- RPM (magnetic and optic)
- Altitude
- GPS
- Voltage
- Current
- Data logging

Includes:

T18SZ transmitter
R7008SB Receiver
6.6V LiFe battery
Switch harness
Mini screwdriver

Stock #	System	Band	Receiver	Mode
FUTK9510	18SZA	2.4GHz	R7008SB	2
FUTK9511	18SZH	2.4GHz	R7008SB	2
