

## Fly the lighter, brighter Eagle!

### More on-the-edge performance — more on-the-money realism!

There's no mistaking Matt Chapman's Embry-Riddle ride, and no closer ARF! It's pounds lighter to push the envelope wider and authentically detailed from the licensed Embry-Riddle livery to the pilot's 3-color helmet. And while it sets new highs in scale accuracy and performance potential in the air, it also reduces assembly time on the bench!

- *The only IMAA / IMAC airplane with a licensed Embry-Riddle trim scheme!*
- *Features a performance-optimized airframe built from strong, light woods and weight-saving fiberglass parts.*
- *Includes a complete set of hardware custom-designed for giant-scale flight!*
