

F-86 SABRE

BRUSHLESS EDF MICRO Fly a true micro EDF jet!

It's the micro that offers real jet looks and a true jet experience — and it's available in RTF (Ready-to-Fly) and Transmitter-Ready™ (Tx-R) versions. The wing span is just 15", and comes with factory-matched components that produce the power needed for sport aerobatics on high and full-throttle passes.

Specifications

Wingspan: 15 in (381 mm)

Wing Area: 53.1 in² (3.4 dm²)

Weight: 2.35 oz (67 g)

Wing Loading: 6.4 oz/ft² (20 g/dm²)

Length: 14.4 in (366 mm)

GPMA1770

Also includes: Tactic™ TTX402 4-channel 2.4GHz radio system & "AA" batteries

GPMA1771

Requires: AnyLink and compatible 4-channel transmitter **or** a Tactic™ 2.4GHz radio with SLT™.

- Fully assembled, carefully scaled and factory finished.
- Reproduces the original's sleek looks in detail, from full-length ducting and molded-in details to authentic markings and a pilot under the canopy.
- Removable landing gear offers the option for grass landings as well as ROG takeoffs.
- Equipped for exciting jet performance with everything you see below.

Both versions include:

- 11,500kV brushless inrunner motor
- 30 mm HyperFlow™ ducted fan unit
- 6A brushless ESC
- 4-channel 2.4GHz SLT™ micro receiver
- (3) digital ultra-micro servos
- 7.4V LiPo flight battery
- Balancing DC LiPo battery charger
