

UNMISTAKABLE LOOKS - OUTSTANDING PERFORMANCE

The Gee Bee's unusual fuselage design acted as an airfoil, allowing the plane to make smooth "knife edge" turns without losing altitude. With foam construction and a brushless electric power system and 4 micro servos already in place, this Receiver-Ready replica of the famous pylon racer can be turning heads and drawing attention at the field within minutes after installing your receiver and battery.

- Smooth and predictable sport performance
- Simple, fast, no-glue assembly
- Brushless motor, ESC and 4 micro servos installed

GPMA6020

Wingspan: 38.5 in (980 mm)

Wing Area: 241 in² (15.5 dm²)

Weight: 1.75-2.0 lb (790-910 g)

Wing Loading: 16.7-19.1 oz/ft² (51-58 g/dm²)

Length: 27 in (685 mm)

Requires: 4-channel radio and receiver; 2200mAh 3S 11.1V LiPo battery and compatible charger
