

ANNOUNCING

REALFLIGHT[®] G5[™]

R/C FLIGHT SIMULATOR

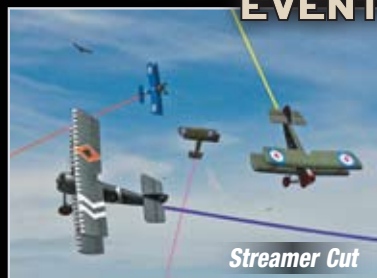

- Over 75 aircraft to fly!
- Over 30 flying sites to explore!
- Includes the InterLink[®] Elite controller — with digital trims, QuickSelect[™] and built-in transmitter interface!

**NOW WITH
COMBAT
EVENTS**

RealFlight delivers such amazing realism that it doubles as the finest R/C flight training tool available. G5 goes beyond that famous “at the field” accuracy to let you also test your expertise in a little game-style fun with friends.

Also new to G5:

- Fly with up to 31 other pilots using the Multiplayer and your Internet connection.
- Automate Multiplayer sessions ahead of time — invite pilots and describe the airports, aircraft, activities and time limits.
- Create your own online “pilot’s license” profile.
- Use the Targeting System to select a single Combat opponent and track his movement throughout the virtual arena.
- Add on-board cameras with the Aircraft Editor — change their angle from your controller and enjoy “from the cockpit” views with First Person Video.

GPMZ4440 Great Planes RealFlight G5 Mode 2

GPMZ4441 Great Planes RealFlight G5 Mode 1

Already own RealFlight G3, G3.5, G4 or G4.5?

Move up to the latest features with the G5 Upgrade (GPMZ4448)!

The most realistic recreation of R/C flight ever![™]

Apocalypse	DS Ridgeline	Obstacle Course	Sierra Nevada Cliff
Boneyard	Flight School	Obstacle Course (Night)	Soccer Field
Buena Vista	Flight School (Night)	Palace	Thermal Park
Carnival	Joe's Garage	RealFlight Ranch	

A full-feature transmitter with digital trims and QuickSelect

INTERLINK[®] ELITE[™] CONTROLLER

by Futaba.

The multi-patented, easy-to-use InterLink Elite is also the most versatile flight sim controller you've ever seen. It's designed after Futaba's popular 6EX — complete with digital trims!

Prefer to use your own R/C transmitter? The interface you need is already built-in. With MultiMode[™] you can even use the controller and interface simultaneously — a feature no other simulator has.

QuickSelect[™]

Controls all basic software functions — virtually eliminates the need for mouse and keyboard!

Apply filters to QuickSelect's easy-to-use menu to narrow down your aircraft options for faster, simpler set-up.

U.S. Patent #7,010,628
U.S. Patent #6,842,804

System Requirements for G5 and G5 Upgrade

Minimum Recommended System:

Note: Some graphical features may be disabled. Aerodynamic calculations will remain high quality.

- Windows[®] XP, Windows[®]Vista[™] or Windows[®] 7
*Local administrator access required.
- Intel Pentium 1.0GHz or equivalent
- 512 MB RAM
- 4 GB Hard Drive Space
- DVD Drive
- 3D Accelerated Video with:
32 MB Dedicated Video Memory
Full DirectX 9 compliant (Pixel Shader 1.4 support)

Optimal System:

For best graphical performance

- Dual Core 2.4GHz CPU
- 2 GB RAM
- 3D Accelerated Video with:
512 MB dedicated video memory
Pixel Shader 3.0 support

Multiplayer:

- Broadband Internet connection
- Computer microphone for voice chat

InterLink[®] Elite Controller:

- USB Port
- Compatible FM or FM-selectable transmitter (if using the interface mode)

Please Note: G5 and G5 Upgrade software requires activation before use.

For G5 Upgrade only

- Software and controller from RealFlight G3, G3.5, G4 or G4.5
