

# REAL FLIGHT 6.5

R/C FLIGHT SIMULATOR

## True to Life™

- Over 75 airplanes and more than 20 helis — plus DOZENS more aircraft in the bonus Mega Packs!
- Over 40 flying sites to explore!

Comes with a bonus Mega Pack with DOZENS more airplanes or helis!

Without TrueView.

With TrueView.

### See more — with TrueView!

TrueView provides the impact of full-spectrum daylight, so colors are brighter and truer, contrasts are sharper and details such as canopies stand out like never before.

### Welcome Screen

- Tip of the Day
- Built-in video player
- Quick ways to choose a flying site, aircraft, recent favorites or a new aircraft/site scenario.
- “Basic Skills” videos on common flying skills.

### Training Aids

#### Virtual Flight Instructor

#### Graphics Settings

A slider allows you to modify your graphics settings and see the results immediately.

#### Smart Binocular Vision

Activates when your aircraft reaches a set distance, and fades away when it's not needed.

#### Onscreen Camera Controls

Add or move cameras without leaving the screen — or using a menu.

### Multiple Camera Views

- Water Takeoffs and Landings
- Blade Stop Autorotations
- More Equipment Options for Flying Sites
- Multiplayer Options
- Orientation Aids
- Jet Pilot Figure
- Custom Engine Sounds
- Kill engine feature — choose which engine to disable
- Custom Airplane Propellers
- Custom Heli Blades
- Random Color Scheme Option
- Heli Grappling Hook

# INTERLINK<sup>®</sup> ELITE CONTROLLER by Futaba

## A full-feature controller designed like a real transmitter

Incredibly realistic and easy to use, the InterLink Elite offers digital trims, QuickSelect convenience and incredible versatility. You can "fly" with the InterLink Elite, fly with your transmitter using its built-in interface or use the interface and InterLink simultaneously, using the unique MultiMode feature.

### QuickSelect™

Control all basic software functions right from the controller — virtually eliminating the need for the mouse and keyboard!

### Instant Rewind & Reset

Crashes are no big deal with RealFlight; push the Reset button, and you're instantly ready to fly again. By holding down on the Reset button you can Rewind, which lets you go back to any point during your last flight for an instant do-over.

### Safety Alert

Provides a checklist of safe practices you should follow when flying your actual R/C model.

### Loads Quickly

Loading a new aircraft or flying site is super-fast. Just start typing the name — choices are instantly displayed for you to select.

### Quick Changes

With just a few keystrokes, you can make simple changes to a RealFlight aircraft that make it fly even more like your real model.

Look for these boxes at your favorite hobby dealer.

## System Requirements

### Minimum Recommended System:

Some graphical features may be disabled. Aerodynamic calculations will remain high quality.

- Windows® XP, Windows® Vista™ or Windows® 7

\*Administrator access required.

- Intel® Pentium® 1.0GHz or equivalent
- 512 MB RAM
- 7 GB Hard Drive Space
- DVD Drive
- 3D Accelerated Video with:  
32 MB Dedicated Video Memory  
Full DirectX® 9 compliance (Shader model 2.0 or better)

### Optimal System:

For best graphical performance.

- Dual Core 2.4GHz CPU
- 2 GB RAM
- 3D Accelerated Video with:  
512 MB Dedicated Video Memory

### Multiplayer Requirements:

- Broadband Internet connection
- Computer microphone for voice chat

### InterLink® Elite Controller:

- USB Port
- Compatible FM or FM-selectable transmitter (if using the Interface mode)

**Note:** The connectors on the InterLink Elite cord and included adapters make the InterLink Elite compatible with the trainer jacks on most Futaba® and all JR®, Spektrum® and Tower Hobbies® systems. Special adapters for use with most older Futaba and Hitec® systems are available separately.

### Activation Required

Windows is a registered trademark of Microsoft Corporation in the United States and other countries.
