

REALFLIGHT® **DRONE** Flight Simulator

GPMZ4800

Includes InterLink® Elite controller
and Windows®-compatible software.

MASTER THE AERIAL CAMERA

Perhaps you're just beginning to explore the world of drones...or maybe you want to develop skills that will help you take better photos and videos. Whatever your goals, the RealFlight Drone flight simulator helps you achieve them quickly and safely. Learn to maneuver your drone for the most impressive shots. Develop FPV camera and gimbal control skills to find the best angles. Protect the investment you've made in your drone and your camera by mastering new skills without risk on your PC!

realflight.com/drone

- Gain skills that apply to any aerial photography platform using a variety of multirotor configurations.
- Learn to maneuver drones into the best position for capturing desired shots.
- Explore FPV (First Person View) camera control and how to use it to select and frame scenes.
- Master basic camera gimbal operation to find the best angle for all of your aerial photos.
- Practice flying and taking photos in a variety of conditions, such as day or night and with winds at different speeds.
- Enjoy game-like challenges that make learning fun by adding a competitive twist.
