

NexSTAR™ EP

Receiver-Ready EP Trainer

Mini

Rx-R™
RECEIVER-READY

Loaded with innovations to ensure first-flight success!

For years the NexStar trainer has been the ideal model for getting into R/C quickly and successfully at the local flying field. The NexStar Mini EP offers beginners and sport fliers the same NexStar advantages in a smaller sized plane that's perfect for the park or playground. Almost completely preassembled, the NexStar Mini EP Rx-R comes with a brushless motor, ESC and 4 nano-sized servos already installed. Just equip it with the appropriate radio system and battery and charger of your choice, and start flying!

- *A couple of screws attach the landing gear and tail section in just minutes — no gluing or measuring*
- *The patented PivotFlex™ wing mounting system attaches the wing securely while allowing it to absorb minor jolts*
- *SpinControl™ airfoil extensions provide added lift to keep you in control at slower airspeeds*
- *SpeedBrakes™ flaps slow the plane down so you can execute stable, confident landings — and they're removable*
- *Includes the NexStar Success Guarantee!*

HCAA0700

Wingspan: 44 in (1120 mm)

Wing Area: 296 in² (19.1 dm²)

Weight: 25-28 oz (710-790 g)

Wing Loading: 12.2-13.6 oz/ft² (37-42 g/dm²)

Length: 36.5 in (925 mm)

Includes: SuperTigre® 400 brushless motor, SuperTigre 20A brushless ESC, (4) ElectriFly™ ES50 nano servos

Requires: 4-channel radio and receiver, 11.1V LiPo battery, charger, "AA" alkaline batteries
