

super cub

Pilot a classic!

Here's one of the easiest ways to enjoy an aviation classic. With a wingspan of almost 18", the Super Cub micro can use almost any open area as a flying field: parks, playgrounds, backyards — even gyms.

Flyzone offers it in two levels of convenience, as an RTF or Tx-R. Both are factory-finished, all-foam and complete with wing struts, fairings and a tailwheel.
