

fokker Dr.1

ready-to-fly micro electric r/c plane

includes:

- Assembled Fokker Dr.1 with pilot*, replica engine and authentic WWI trim scheme
- Tactic™ 2.4GHz micro radio with built-in charger
- Rechargeable 3.7V 130mAh LiPo flight battery
- Five "AA" radio batteries

* Pilot requires painting and installation.

With the Fokker Dr.1, figuring out where to fly it is as easy as everything else about it. Its compact, 14.1" wingspan makes it easy to take almost anywhere, from your own backyard to the gym at the school. And you'll need to decide quick, because the Fokker Dr.1 requires very little assembly — and nothing else. Everything's included. Charge your pack and you're ready for fun!

- 100% complete. Requires only a few minutes of easy assembly.
- Provides up to 10 minutes of air time per charge — and recharges on the radio!
- Includes a new 2.4GHz Tactic™ micro radio, designed for a more comfortable grip and smoother, faster response.
- Arrives finished in Axis colors and trim, with a pilot figure and installed replica radial for added authenticity.
