

playmate™

Instant airtime — anywhere!

No time for a trip to the field? Fly the Playmate Tx-R right where you are — in your yard, in a park, or turn a large indoor area into a handy, all-weather flying site!

Includes:

- AnyLink-compatible 2.4GHz SLT™ receiver
- Powerful motor and ESC
- 3.7V 130mAh LiPo flight battery
- Cordless DC LiPo battery charger
- Five "AA" alkaline transmitter batteries

Fly the Playmate micro with your favorite transmitter!

As long as your transmitter is AnyLink-compatible — nearly all brands, bands and modulations are — it will fly this model. In most cases, you'll just plug the tiny AnyLink (available separately) into your transmitter's trainer port. Then you're ready to send secure signals to Playmate's SLT receiver. See tx-ready.com for full details.

Recommended Products (Tx-R:)

TACJ2000 AnyLink™ 2.4GHz Radio Adapter
FUTK6000 Futaba® 6J 2.4GHz S-FHSS 6-Channel Computer Radio System

Note: For a complete list of required items, see the instruction manual. Ask your hobby dealer for additional recommendations, or go to flyzoneplanes.com — where you'll also find the latest technical updates.
