

STARTM
PLUG

Patent pending.

The better option in polarized power plugs!

Want to get the last watt from every pack? Then what you need is the Star Plug.

It's polarized so you can't hook it up wrong and 100% compatible with the most common power plug in R/C. Yet it includes features so innovative that a patent is pending. They're features that make it easier to grip and separate, able to handle massive current loads with ease, protect against short circuits — and make heat-shrink tubing a thing for the past.

Looking for a better option in power connectors? Then look for the Star Plug

- Molded from a strong, heat- and impact-resistant polymer.
- Features a tapered shape and grip strips for fast, easy separation.
- Unique center isolator in rear caps prevent terminals from shorting.
- Slots in sides simplify and speed separation of back cap and plug body.
- Feature gold-plated male terminals for excellent conductivity and nickel-plated female terminals for wear resistance and longer life.
- Stainless steel spring for tight connections even after hundreds of uses.
