

The Perfect Power Pair for Flying!

Just connect a 12V field battery, and let the Deluxe Power Panel II do the rest. It can fill or drain your fuel tank, get your engine off to a quick start and help you diagnose engine problems, detect a burned out plug or simply send current to a glow plug. And if your glow starter is low, just plug it into the built-in charger jack on the faceplate and recharge in minutes.

- Gives you the power you need to do each job in turn — or everything at once.
- Includes a green status LED that shines while a glow starter is charging.
- Compatible with Hobbico Hot-Shot 2 and virtually all other brands of glow starter.
- Includes hardware for fast, easy mounting on most field box face plates.
- Includes a dial for easy glow heat adjustment, plus an ammeter for easy monitoring of plug status.

TorqMaster LC 12V/7Ah Field Battery 12V power in a compact, 5-pound package.

It's no-spill because it's sealed, which also makes it no-maintenance — you never have to add electrolyte. Compact dimensions make it an easy fit for virtually any flight box...12V of power and 7Ah of current make it the only battery you'll need to power all of your field box equipment. Rechargeable. (Charger available separately.)
