

THE NANO YOU CAN TAKE INVERTED INDOORS!

NOVUSTM CP

Ready-To-Fly Collective Pitch
Electric Nano Helicopter

It's incredibly compact, yet offers some of the same advanced features found on much larger helis. Aerobatic performance makes it a great choice for intermediates and experts — and its size turns the average living room into a perfect field for practice...and fun!

**Heli-Max 2.4GHz
Radio included!**

HMXE0804

Rotor Diameter: 12 in (305 mm)

Weight: 2.4 oz (68.4 g)

Height: 3.7 in (95 mm)

Length: 10.7 in (272 mm)

Width: 2 in (50 mm)

Requires: 8 "AA" batteries

- A collective-pitch nano heli that includes a full eCCPM system...and Bell-Hiller mixing.
- Fully assembled, painted and complete except for 8 "AA" batteries.
- Heli-Max 6-channel system offers 2.4GHz dependability and ready-to-fly ease!
- Includes a 2.4GHz receiver, plus three, 3-gram digital micro servos for exceptionally precise centering and fast response.
- A 3.7V, 400mAh LiPo battery offers lightweight capacity for long flights — and comes with an AC wall charger.
- Unique, bevel gear tail drive is bearing-supported for smoother response and less wear.
- Lightweight and crash-resistant, with a plastic canopy and music-wire landing gear.
