

N NOVUS™ CP 125

2.4GHz Brushless Sub-Micro Collective-Pitch Heli

FLY IT NOW!™ **Indoors or out!**

Sub-micro size makes Novus 125 helis easy to enjoy indoors or out. But what really sets them apart from other ready-to-fly helis are value and performance.

They're not just the smallest torque tube-driven electrics ever; they're the best-equipped sub-micros R/C has ever seen. They offer you the precision of a heading-hold gyro, a torque-tube driven tail and digital servos. The interference-free dependability of a 2.4GHz radio system. Maintenance-free brushless power — and more!

Get the best that RTF helis can offer — the Novus 125 Series from Heli-Max.

Specifications:

Rotor Diameter: 12.0 in (305 mm)

Weight: 3.2 oz (91 g)

Height: 3.9 in (100 mm)

Length: 11.2 in (285 mm)

Width: 1.6 in (40 mm)

Requires: 8 "AA" alkaline batteries

Stock Number: HMXE0806

- *The sub-micro with the all-out aerobatic performance of much larger helis!*
- *Torque tube-driven tail and heading-hold gyro offer precision and efficiency other sub-micros can't match.*
- *Offers a collective-pitch rotor head and the swift, precise response of Bell-Hiller mixing.*

The Novus 125 CP includes:

- *Fully assembled heli*
- *Brushless motor & ESC*
- *Heading-hold gyro*
- *Programmable 2.4GHz 6-channel computer radio system w/backlit LCD*
- *Digital servos*
- *3.7V 600mAh LiPo battery*
- *AC wall charger*
