

Heli-Max™

NOVUS™ UH-1D HUEY™

Ready-To-Fly 2.4GHz Nano-Sized EP Helicopter

CONDUCT RESCUE OPERATIONS INDOORS AND OUT!

With functioning navigation lights, a detailed cockpit, panel lines, a scale trim scheme and jet exhaust locations, the Novus UH-1D has everything you would find on a full-size Huey — right down to the rivets. A heading hold gyro and coaxial design make this palm-sized heli incredibly easy to fly.

- Comes complete with radio, two LiPo batteries, charger and extra blades
- Besides interference-free control, the 2.4GHz radio system also features dual rates — a single switch lets you go from smooth, stable flight at low rates to maximum maneuverability at high rates
- Small enough to fly in any room, while capable of being flown outdoors in calm conditions
- Just add “AA” batteries, charge the included LiPo packs and fly!

HMXE0808

Rotor Diameter: 7.7 in (195 mm)

RTF Weight with battery: 2.75 oz (78 g)

Height: 4.8 in (120 mm)

Length: 8.25 in (210 mm)

Width: 1.95 in (50 mm)

Requires: 8 “AA” batteries
