

AXE™ CP

Ready-to-Fly Electric Aerobatic Heli

THE FIRST STEP TO HELI SUCCESS!

The Axe line is one of the most recognized heli families in R/C, and the Axe CP is one big reason why. It's factory-assembled for ease, and comes equipped with everything need for flight, as well as anodized aluminum parts for looks and training gear for extra confidence. With just a little coaxial or fixed-pitch heli experience, it'll be no time until you're flying the Axe CP and enjoying its fully aerobatic capabilities to the fullest!

Includes:

- Fully equipped and flight-ready, with extras that include anodized aluminum parts and training gear
- 5-channel 2.4GHz SLT transmitter with dual rates and the unequalled dependability and security of the SLT protocol
- Finished, trimmed canopy
- Factory-installed motor, controller, gyro, servos & SLT receiver
- 11.1V 1050mAh LiPo battery
- AC balancing LiPo wall charger

HMXE0810

Rotor Diameter: 21.5 in (546 mm)

Length: 22 in (559 mm)

Weight: 16.8 oz (476 g)

Requires: (4) "AA" batteries
