

AXE™ CP

***The first step to
heli success!***

Ready-To-Fly Electric 2.4GHz Helicopter

The Axe CP line of helis is one of the most recognized in R/C, and this machine stands out with requested features such as a 2.4GHz radio, simplified rotor head, LiPo battery, anodized aluminum parts and more. It comes completely assembled, with virtually everything you need — right down to the training gear. With just a little coaxial or fixed pitch heli experience you'll be confidently flying the Axe CP 2.4GHz and enjoying its fully aerobatic capabilities in no time!

- ***The 5-channel 2.4GHz radio offers dual rates along with interference-free control***
- ***The 11.1V 1050mAh LiPo is equipped with Deans® Ultra Plug® and balancing connectors***
- ***An AC wall charger with balancing function is included***
- ***Training gear adds forgiveness during the learning process***

HMXE0810
