

# 55AX ABL

More muscle for mid-sized planes!

Put more power in your .40-size model the easy way: just drop in a 55AX engine. It has the same bolt pattern as the 46AX for no-mod retrofits, but it also has the added displacement needed to swing bigger props — and everything you need for better 3D, precision and sport flying.

- A diagonally-placed needle offers more pilot safety and eliminates the need for a remote needle valve.
- The 6-sided, angular head offers unique looks and significantly more surface area for cooling.
- Included E-3071 Power Box muffler quiets without compromising power.
- Exclusive ABL (Advanced Bimetallic Liner) reduces friction and wear.

#### **OSMG0557**

**Displacement:** 0.545 cu in (9 cc)

**Bore:** 0.91 in (23 mm)

**Stroke:** 0.85 in (22 mm)

**Practical RPM:** 2,000-17,000

**Output:** 1.68 hp @ 16,000 rpm

#### **Weight:**

14.3 oz (404 g) w/o muffler

18.5 oz (525 g) w/muffler

**Includes:** #8 glow plug, E-3071 Power Box muffler & needle valve extension

**Recommended Props:** 12x7, 12x8, 13x6 & 13x7

**O.S. ENGINE**
