

# THE 65AX

Adds power. Axes weight.

The new 65AX generates 5% more power than the popular 61FX. That's the good news. The even better news is that it's also 1.9 ounces (53 grams) lighter and mounts in the same space. That means it offers a better power-to-weight ratio for trainer, scale and sport airplanes...and drop-in ease for retrofits, as well. For the modeler who wants it all, the O.S. 65AX delivers.

## OSMG0558

**Displacement:** 0.65 cu in (10.6 cc)

**Bore:** 0.95 in (24 mm)

**Stroke:** 0.93 in (23.5 mm)

**Output:** 2 hp @ 16,000 rpm

**Rpm Range:** 2,500-12,000

**Weight (w/o Muffler):** 17.5 oz (497 g)

**Weight (w/Muffler):** 23 oz (653 g)

**Weight (w/Muffler):** 23 oz (653 g)

**Props:** 12 x 6, 13 x 6-7, 14 x 6
